

EUROTEQ DAY

21. NOVEMBER 2024

PROGRAM PÅ DTU

- 
10.30-11.00 **The role of Universities in shaping the future of Europe**
 Get ready to be inspired by Prof. dr. Silvia Lenaerts, Rector Magnificus at TU/e, who urges us to leverage our unique strengths and transform our world through collaboration and shared purpose. Join us as we delvelop into how academia can lead Europe towards a brighter, more sustainable future.
- 
11.00-12.00 **A future with AI**
 AI has the potential to solve global challenges if used correctly. But what is the right way? Who determines this? In this session, Dr. Ir. Carlo van de Weijer will touch on the importance of responsible AI use and its impact on various fields, like healthcare mobility and energy.
- 
11:30-12:00 **Expand your horizons with EuroTeQ - Student shares his perspective**
 This presentation, led by a fellow university student with personal experience, will introduce the EuroTeQ project opportunities from his perspective. The presenter will share first-hand insights into the benefits of cross-institutional learning, virtual and hybrid courses, and the process of enrolling in these opportunities.
- 
12:30-13:30 **Fit for EuroTeQ - Life hacks for working in intercultural teams**
 Are you ready to elevate your engineering studies with a fresh European perspective? In this dynamic session, you'll explore how the diverse cultures of our eight partner countries shape engineering practices across Europe and learn valuable skills for international collaboration and tools to thrive in cross-cultural teams!
- 
13:30-14:00 **Student session break**
- 
14:00-14:30 **Introduction to the course Wireless Networks**
 Professors at l'X, Marceau Coupechoux and Juan-Antonio Cordero Fuertes, will present their EuroTeQ lecture on wireless networks and the Internet of Things. The presentation includes the topics and structure of the course, and successful projects produced by former students.
- 
14:00-14:30 **Workshop - How to Pitch your idea (join online)**
 Join this workshop and learn the art of pitching your ideas effectively! This interactive session will equip you with the skills to present your concepts confidently and persuasively. Don't miss this opportunity to enhance your communication skills. Registrations are open for teams (2-4 members) or individuals representing a team.
- 

15:00-16:00 **EuroTeQ for students has a plethora of possibilities! (At DTU)**
 Discover the exciting opportunities awaiting you as a student within EuroTeQ! Join us for an insightful session where we'll explore the diverse range of mobility options available to you. You'll hear fellow students sharing their international experiences and learn how the competencies you gain can boost your future career in the industry.
- 

16.00-16.30 **Introduction to the EuroTeQ Collider**
 Get inspired to be part of EuroTeQ Collider, the Challenge-Based Learning initiative from EuroTeQ. In this session, you will hear unique experiences and insights from different perspectives. Prof. Paul Koenraad will kick off the session by shedding light on the innovative idea that sparked this collaborative initiative.
- 

16.30-18:00 **Snacks n' mingle**
 Students and invited alumni, companies, and stakeholders will have the opportunity to mingle and talk to DTU representatives from each EuroTeQ focus area within challenge-based learning, international online courses, and lifelong learning
- 

17:30-18:30 **EuroTeQ Quiz**
