Remote working

No remote working

Coloplast is a global Danish medtech company that develops products and services for people with intimate healthcare needs, including ostomy, continence, wound and skin care. The company is headquartered in Denmark and focuses on improving quality of life through innovative, user-centered solutions.

This internship is offered through the Global Top Student Programme at the Technical University of Denmark (DTU) in collaboration with Coloplast. Only top bachelor students recommended by their home university are eligible to apply. As participants, students will gain hands-on professional experience while being connected to DTU's international academic environment and student community.

Job Description

You will join the Innovation Portfolio Management PMO within the company. The team consists of PMO managers working together to support project, programme and portfolio governance, processes and reporting. As an intern, you will work alongside experienced colleagues who will support your learning and development while giving you the opportunity to contribute with structure, analysis, and new ideas.

Your tasks will include (but are not limited to):

- Supporting project, programme, or portfolio reporting activities
- Collecting, structuring, and analyzing project data and status updates
- Supporting governance processes, project reviews, and portfolio overviews
- Contributing to process improvement initiatives within the Innovation Portfolio Management
- Supporting performance management, including KPI tracking and portfolio insights
- Supporting budget management, financial reporting, and strategy deployment activities

The exact tasks and responsibilities will be adjusted based on your background, interests, and the priorities of the PMO team.

Qualifications

We are looking for a motivated and curious candidate who:

- Is currently enrolled in the final year of a Bachelor's degree programme
- Has a background in project management, data science, AI, or a related technical field
- Has relevant academic or practical experience from coursework, student projects, internships, or student jobs related to planning, coordination, analysis, or BI reporting
- Has a strong interest in project and portfolio management, process optimisation and continuous improvement. Demonstrates an interest in leveraging AI, data and digital tools to enable automation and strengthen data-driven decision-making.
- Is analytical, structured, detail-oriented, and comfortable working with multiple tasks and deadlines
- Has good collaboration and communication skills
- Has demonstrated proficiency in written and spoken English, documented by one of the following English language tests. Minimum required scores are:
 - Duolingo English Test (overall: 120)
 - TOEFL (old scale overall: 92, new scale overall: 4.5)
 - IELTS Academic (overall: 6.5)

– CAE (overall: 180)

You can read more about the language test requirements [here](#).

What we offer

The internship offers international students the opportunity to gain hands-on professional experience in Denmark while working in an international and innovative environment at Coloplast, with exposure to project coordination, governance, reporting, and PMO ways of working.

Through DTU's Global Top Student Programme, interns will also become part of DTU's international student and alumni community, gaining access to a range of exclusive offers and support, including:

- Administrative and practical support – including housing assistance
- Social and networking framework, including an introduction week, cultural activities, and semester events
- Parallel academic opportunities – coursework on the side

Practical information:

- Internship period: 25 January 2027 – 25 June 2027 (one semester)
- Working hours: 37 hours per week (full-time)
- Location: Høtveddam 1, Humlebæk, Greater Copenhagen area, Denmark
- Compensation: The internship is compensated in accordance with standard internship salary levels in Denmark.

You can read more about the company here: www.coloplast.com

For useful information on the programme and student life at DTU, see [Global Top Student Programme](#) and [Student guide - DTU](#).

Application procedure

The application procedure consists of two steps.

Step 1: Nomination

In order to be considered for this programme, you must be nominated by your home university in the DTU Exchange Student system. Once you have been nominated, you must complete your nomination by uploading the following documents:

- Grade transcripts (in English) including an official description of the grading scale
- Documentation proving that you have passed one of the above English language tests

Step 2: Application

To apply, please open the link "Apply now", fill out the online application form, and attach all your materials in English as PDF files. The files must include:

- A CV including information about your education, relevant experience, language skills, and other skills relevant to the internship position
- A motivated cover letter (max. 1 page)

Your complete online application must be submitted no later than 15 September 2026 (23:59 Danish time).

We look forward to receiving your application.

Application deadline

16 September 2026

Study level

Bachelor level or equivalent

Job Category

Engineering
